Contents of Volume 1

NUMBER 1 MAY 1987

The Application of a Multichannel Electro-optical Detection System to the Analysis of Large Molecules by FAB Mass Spectrometry 1
J. S. COTTRELL AND S. EVANS

Ring Expansion in Substituted Methylenefuran Cations 2
D. ROBIN AND H. E. AUDIER

Multiply-charged Helium-containing Cations: $HeCO^{2+}$, $HeCF^{3+}$ and $HeCNe^{4+}$ 3
M. W. WONG, R. H. NOBES AND L. RADOM

A Study of Singly and Doubly Charged C_9H_8 and C_9H_7 Ions Formed from Indene and 1-Naphthol 5
M. RABRENOVIĆ AND T. AST

[H^+,Xe] One- and Two-step Double Charge Transfer Reactions Studied with a Tandem Collision Gas Chamber 9
P. C. BURGERS AND J. K. TERLOUW

High Time and Mass Resolution with an Axial Symmetry ^{252}Cf Time-of-flight Mass Spectrometer 10
S. DELLA-NEGRA, C. DEPRUN AND Y. LE BEYEC

FAB and Sequential Mass Spectrometry with a VG ZAB-EQ: Hexose Stereoisomers 12
R. GUEVREMONT AND J. L. C. WRIGHT

Charge Localization by Molecular Orbital Calculations. I. Urea and Thiourea 13
M. A. BALDWIN AND K. J. WELHAM

Improved Detection of 'Suppressed' Peptides in Enzymic Digests Analyzed by FAB Mass Spectrometry 15
R. M. CAPRIOLI, W. T. MOORE AND T. FAN

NUMBER 2 JUNE 1987

Unlinked E-Q Scans for Quadrupole Mass Resolved Ion Kinetic Energy Spectra (QMIKES) 19
R. GUEVREMONT

Negative-ion Chemical Ionization in Tandem Mass Spectrometry 20
G. BOUCHOUX, Y. HOPPILLIARD, P. JAUDON AND J-M. PECHINE

Molecular Ion Emission from Superposed Langmuir-Blodgett Films of Different Molecules in MeV Ion Induced Desorption 22
G. BOLBACH, S. DELLA-NEGRA, C. DEPRUN, Y. LE BEYEC AND K. G. STANDING

Evidence for $H^{\cdot}(\beta)$ and $H^{\cdot}(\delta)$ Competitive Migrations in 2-Methyl Pentanoic Acid Radical Cations 25
H. E. AUDIER AND G. SOZZI

Rotational Predissociation of HF^+ 26
A. R. LEE, M. HAMDAN, A. G. BRENTON AND J. H. BEYNON

Selective Detection of Aromatic Hydrocarbons Involving Half-masses 28
P. G. SIM, W. D. JAMIESON AND R. K. BOYD

Application of a Combined Supercritical Fluid Chromatograph/Mass Spectrometer to the Investigation of Gas Phase Ion/Molecule Reactions 29
P. J. ARPINO AND J. COUSIN

Dispersion Versus Absorption (DISPA) Method for Automatic Phasing of Fourier Transform Ion Cyclotron Resonance Mass Spectra 33
E. C. CRAIG, I. SANTOS AND A. G. MARSHALL

© Heyden & Son Ltd, 1987

NUMBER 3 JULY 1987

Effect of Time-domain Dynamic Range on Stored Waveform Excitation for Fourier Transform Ion Cyclotron Resonance Mass Spectrometry 39
L. CHEN AND A. G. MARSHALL

Fast Atom Bombardment Mass Spectrometry of Polar Metabolites of Organophosphorus Pesticides 42
G. M. ALLMAIER AND E. R. SCHMID

Translational Energy Release and Stereochemistry of Steroids. X. The Effect of the 5,6-Double Bond on the Elimination of Angular Methyls and Water from Metastable Molecular Ions of Epimeric Steroid Alcohols 45
Z. V. I. ZARETSKII, J. M. CURTIS, A. G. BRENTON AND J. H. BEYNON

Environmental Applications of Thermospray LCMS: Qualitative Analysis of Sulfonated Azo Dyes 48
D. A. FLORY, M. M. McLEAN, M. L. VESTAL AND L. D. BETOWSKI

Structural Determination of Unsaturated Fatty Acids in Complex Mixtures by Capillary GC/MS-MS. Remote Site Fragmentation of Carboxylate Anions from Electron Capture Ionization of Pentafluorobenzyl Esters 50
J-C. PROMÉ, H. AURELLE, F. COUDERC AND A. SAVAGNAC

$[HCNO]^{+\cdot}$, $[HNCO]^{+\cdot}$ and their Neutral Counterparts Studied by Mass Spectrometry 52
C. E. C. A. HOP, J. L. HOLMES, K. J. VAN DEN BERG AND J. K. TERLOUW

NUMBER 4 AUGUST 1987

Experimental Evidence for the Imino Methyl Radical ($HCNH^{\cdot}$) by Neutralized Ion Beam Spectroscopy 57
A. B. RAKSIT, D. M. HUDGINS, S. BUCHAU AND R. F. PORTER

The Mass Spectra of *N*-Benzyloxymethylazoles 59
R. T. APLIN, J. H. JONES AND P. B. WYATT

$NH_2O^{\cdot}$ and $NHOH^{\cdot}$: Generation and Characterization of their Neutral Species and Cations in the Gas Phase 61
C. LIFSHITZ, P. J. A. RUTTINK, G. SCHAFTENAAR AND J. K. TERLOUW

Ion/Molecule Reactions in Isobutane Near the Ionization Threshold 63
R. NEAGU-PLESU AND J. A. HERMAN

Analysis of Mycobacterial Polyunsaturated Fatty Acids ('Phleic Acids') by Remote Site Fragmentation 65
H. AURELLE, M. TREILHOU, D. PROME, A. SAVAGNAC AND J-C. PROMÉ

Analysis of Nonderivatised Peptides by Thermospray Using a Magnetic Sector Mass Spectrometer 67
D. S. JONES AND S. T. KROLIK

Analyses of Carcinogen-modified Oligonucleotides by Fast Atom Bombardment/Tandem Mass Spectrometry 69
J. J. DINO, JR., C. R. GUENAT, K. B. TOMER AND D. G. KAUFMAN

NUMBER 5 SEPTEMBER 1987

Mass Spectral Characteristics of Some 1,5-Disubstituted Pentane-1,3,5-triones 73
V. ŠVOB AND D. ŠKARE

Chemical Ionization of Benzyl Isothiocyanate with Ammonia: Observance of an S_N1 Reaction Involving the Tropylium Fragment Ion 74
T. CAIRNS, E. G. SIEGMUND AND J. J. STAMP

Trace Level Measurement of Enkephalin Peptides at the Attomole/Femtomole Level by FAB-MS: Optimization of FAB Matrix Conditions 77
E. TOLUN, C. DASS AND D. M. DESIDERIO

The Analysis of Small Proteins in the Molecular Weight Range 10–24 kDa by Magnetic Sector Mass Spectrometry 80
M. BARBER AND B. N. GREEN

The Structural Elucidation of Bacterial Capsular Polysaccharides Using Laser Desorption Ionization Fourier Transform Ion Cyclotron Resonance Spectroscopy 83
Z. LAM, M. B. COMISAROW, G. G. S. DUTTON, D. A. WEIL AND A. BJARNASON

Isomerization of Ionized Propanal and of Related $[C_3H_6O]^{+\cdot}$ Cations: A Molecular Orbital Approach 86
G. BOUCHOUX AND J. TORTAJADA

© Heyden & Son Ltd, 1987

NUMBER 6 OCTOBER 1987

Thermospray Mass Spectrometry of Aldicarb and its Metabolites 89
T. CAIRNS, E. G. SIEGMUND AND J. J. STAMP

Temperature Dependence of Neburon Mass Spectra Using Thermospray or a Moving-belt Interface 90
T. CAIRNS, E. G. SIEGMUND AND J. J. STAMP

Ion/Surface Collisions Which Lead to Charge Permutation 92
M. E. BIER, M. VINCENTI AND R. G. COOKS

The Role of Complexes Between Ions and Neutral Species in the Fragmentation of the Hexanal Molecular Cation 94
G. BOUCHOUX, Y. HOPPILLIARD AND P. LONGEVIALLE

Confirmation of Glycerol 1,2-Cyclic Phosphate as a Metabolite in Centric Diatoms by Tandem Mass Spectrometry 96
R. K. BOYD, A. S. W. DEFREITAS, A. W. McCULLOCH, A. G. McINNES AND J. A. WALTER

Stored Waveform Inverse Fourier Transform Excitation for Obtaining Increased Parent Ion Selectivity in Collisionally Activated Dissociation: Preliminary Results 99
R. B. CODY, R. E. HEIN AND S. D. GOODMAN

NUMBER 7/8 NOVEMBER/DECEMBER 1987

Assessment of the Effect of Growth Temperature on the Lipid Composition of *Serratia marcescens* Using Laser Desorption Mass Spectrometry 103
H. HARA AND R. J. COTTER

On Double Charge Transfer Reactions Studied with Tandem Collision Gas Cells 105
D. MATHUR

Electron Capture Negative Ion Mass Spectrometry of the Chlorobenzenes 106
D. S. WADDELL, P. G. SIM AND R. K. BOYD

Diagnostic Daughter Ions for Steroidal 4-En-3-ones 108
T. CAIRNS AND E. G. SIEGMUND

Protocol for the Detection of Low to Sub-picogram Quantities of Chlorinated Dioxins and Furans by Tandem Quadrupole Mass Spectrometry 111
D. H. SCHELLENBERG, B. A. BOBBIE, E. J. REINER AND V. Y. TAGUCHI

Narrowing the Gap Between keV and Fission Fragment Secondary Ion Yields with Nitrocellulose 114
F. LAFORTUNE, R. BEAVIS, X. TANG, K. G. STANDING AND B. T. CHAIT

Translational Energy Release and Stereochemistry of Steroids. XII. The Differences in the Origin of *m/z* 124 and 163 Key Ions in Epimeric 11-Hydroxy Steroids of the Δ^4-3-Keto Series 117
Z. V. I. ZARETSKII, J. M. CURTIS, A. G. BRENTON AND J. H. BEYNON

Resolution Improvement by Using Harmonic Detection in an Ion Cyclotron Resonance Mass Spectrometer 120
Y. PAN, D. P. RIDGE, J. WRONKA AND A. L. ROCKWOOD

The Fragmentation of Di(methoxymethyl ethers) of Hydroquinone, Resorcinol and Catechol Under Electron Impact: A New *ortho*-Effect 122
P. LONGEVIALLE

Poly(dimethylsiloxane) as Mass Reference for Accurate Mass Determination in Isobutane Chemical Ionization Mass Spectrometry 124
M. McCAMISH, A. R. ALLAN AND J. ROBOZ

Structural Analysis of Phospholipids by Fast Atom Bombardment/Collisional Activation with a Tandem Mass Spectrometer 126
H. MÜNSTER AND H. BUDZIKIEWICZ

Mass Spectral Evidence for the Electrophilicity of N-Ethylmaleimide and Thiobenzoyl Groups 129
M. JEMAL, S. BLACK AND A. I. COHEN

Unimolecular Dissociation of Ions in the Acceleration Region of a Mass Spectrometer 132
G. K. KOYANAGI, A. W. McMAHON AND R. E. MARCH

© Heyden & Son Ltd, 1987
